ALBUM

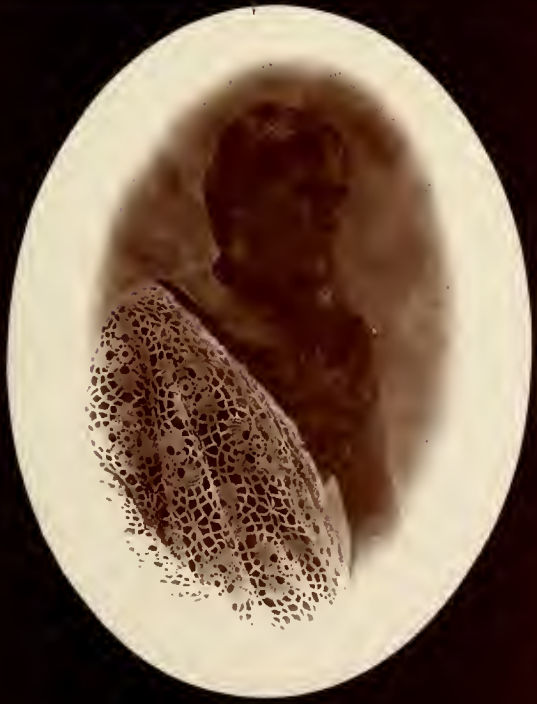
Memory is a capricious and arbitrary creature. You never can tell what pebble she will pick up from the shore of life to keep among her treasures, or what inconspicuous flower of the field she will preserve as the symbol of a thought that so often lies too deep for tears... And yet I do not doubt that the most important things are always the best remembered.

Henry Van Dyke

We Remember Yesteryear



What is time? - The shadow on the dial, the striking of a clock, the running of the sand, day and night, Abraham and Isaac, months, years, centuries - these are but the arbitrary and outward signs of time, not time itself. Love is the life of the soul. - Longfellow

A many times when well husbanded, is like a cultivated field of which a few acres produces more of what is useful for life, than extensive provinces, even of the richest soil, when overrun with weeds and brambles.

Hume

In history as in life it is victory that counts. Start a War and let yourself be caught, and you will hang as a Traitor. But place yourself at the head of a rebellion and gain your point, and all future generations will worship you as the Father of their country.

Hundred Years

Strike up the Band and Sing a Chorus

And Send our Sons To Victory

OH SNAP THE FIFE AND STILL THE DRUM

AND SHOW THE MONSTER AS SHE IS!

But back at home we laugh and dance. Can experience never teach? Mother's sons are home again – at least in part. The Nation Lives.

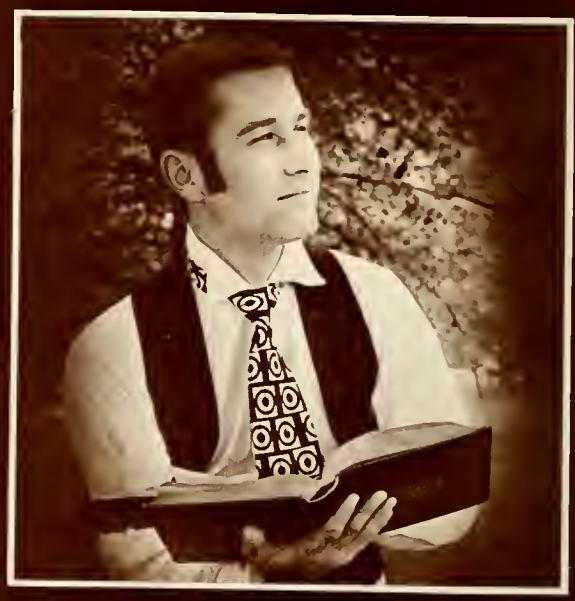
Joyce

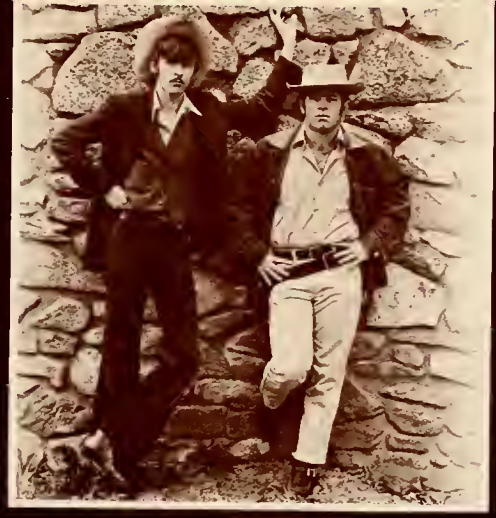
Only maidenhood + youth
Only eye that are most fair
And the purest of a maiden
And the Grace of Goldenhair.
And besides her the your wife,
And we breathe a finer air.

E. Doroden

Foppery is never cured; it is of the bad stamina of the mind, which, like those of the body, are never rectified. — Ogle a coxcomb, although a Coxcomb.

Johnson





The earliest and oldest and longest has still the mastery of us. ~George Eliot

These old ages are like the landscape that shows best in the purple distance all verdant and smooth and bathed in warm mellow light.

Physical courage which despises all danger, will make a man brave in one way; and moral courage, which despises all opinion, will make a man brave in another. — The former would seem most necessary for the game; the latter for the council; but to constitute a great man, both are necessary.

Afraid not of Summits nor of chasms below;

We all know that whether it be summer or winter, we all engage in activities where only a non-alcoholic beverage is appropriate. Either strenuous physical activity or family-type or church-oriented affairs prescribe that a soft drink must be served. In these instances, only Coca-cola will adequately fill the need. It is not only thirst quenching and invigorating, but is also a refreshing "party" drink for those who choose not to imbibe.

The smallest size letters on this card should be read easily at fifteen inches from the eye. If you cannot do so you should wear spectacles. It does not pay to buy cheap spectacles.

They distort the rays of light, disturb the angles of vision, cause pain and discomfort and injure the eyesight. When it is necessary to hold work or reading matter farther than fifteen inches from the eyes

SEROCO SHINGLE STAIN AND PRESERVATIVE

While our mineral paint is highly recommended for shingled roofs, still some prefer a shingle stain. Our shingle stains are the best it is possible to make. They are made in our own paint factory and every package leaving our factory contains full measure and is guaranteed as to quality. Strong in color with the highest preserving qualities. Water will not penetrate shingles coated with our stains, rendering them practically immune from decay. Our prices quoted below are based on the actual manufacturing cost with but our one small percentage of profit added, therefore do not be deceived by paying a higher price, as a better shingle stain cannot be made. Send us your order; we guarantee satisfaction or money refunded. The shingles can be dipped in the stain or it may be applied with a brush. A shingled roof coated with these stains will last twice as long. When applied with a brush, one gallon will cover about 150 square feet of surface, one coat, or 100 square feet, two coats. When dipped, 2½ to 3 gallons will cover 1,000 of the regulation 4x16 shingles. Two-thirds the length of the shingle only need be dipped. Furnished in the following shades:

No. 30K1181	Moss Green	No. 30K1185	Red
No. 30K1182	Dark Green	No. 30K1186	Brown
No. 30K1183	Dark Slate	No. 30K1187	Black
No. 30K1184	Light Slate		

IT IS JUST AS IMPORTANT to preserve the roof as it is to preserve any other portion of the house. No one thinks of building a home, a barn or any other building without painting it to preserve the woods from the elements, yet 90 per cent or more of those who build never think of giving the roof a coat of preservative for the same purpose. It is a real economy to use Seroco Shingle Stain and Preservative as it will preserve the roof for many years longer than it would be of service if left exposed to the weather. Seroco Shingle Stains are easily applied and it requires no skill whatsoever to use this splendid preservative and our little free book "How to Paint" explains it all to you so that you may do this work yourself. It is cheaper to paint your shingles than it is to reshingle the house and we advise all our customers to make the trifling investment necessary to give every roof on the premises a good coat of this splendid preservative.

The South Forest Barber and Styling Shop is considered by most to be the finest tonserial parlour in the Asheville area. If you are a gentleman of refinement, you must be sure to give us your patronage.
